

User's Guide

"Copy To" Workflow Operation

In order to keep your Workflows as you designed it (with Recursive Global Transitions), you can override a published Workflow with its copy before the Publish / Assign operation

Copy of Workflow Descriptor to ...

Select the Workflow that has to be updated with Workflow Descriptor of **WF_BUG-REPORT**.
It has to be done carefully !

To the Workflow*

WF Support 1.0

Select the workflow to override among the active Workflows
