Alkaes Minyaa Core Home

The ***Alkaes Minyaa Core*** Plugin provides a different small features and resources used by MinyaaTime.

Before 4.x, **Minyaa Core** was more an edition providing all other plugins that were not related **Minyaa Time**, **Workflows**, **Spread** or **Reports**.

It contained the following plugins :

- Minyaa Core plugin
- Minyaa Tools plugin
- Minyaa Projects plugin

Now, it contains only few features and resources and , since most of them have been move in separate plugin/editions ..

> **Information**
>
> **Minyaa Core** is only provided in combination with **Minyaa Time** (embedded) and **Minyaa Workflow** (on demand).

> **Minyaa 3.x**
>
> Thanks for noting that this documentation site for Minyaa Core 3.5.x is available here .

On this page:

- Additional Resources
- Global Permission for Auto-Transition
- Regular Expression Field
- Roll Over Backups
- Workflow Functions on Global Permissions

> **Not sold separately**
>
> Since it has to few features, **Minyaa Core** is not sold directly, nor priced. Its future is not yest clear : to be exploded in other plugins or to extend with new features.

Additional Resources

Different resources are provided by Minyaa Core. They should/may be moved later into the plugin Alkaes JIRA Plugin - Commons.

Global Permission for Auto-Transition

An extended Global Permission is provided. It is required for Timesheet Management in Minyaa Time.

Regular Expression Field

Different resources are provided by Minyaa Core. They should/may be moved later into the plugin Alkaes JIRA Plugin - Commons.

Roll Over Backups

Roll Over Backup is JIRA service that supports some Roll Over rules : when a backup is made, the oldest backup or the backups that are older than a configured amount of days are automatically deleted.

Workflow Functions on Global Permissions

A Condition and a Validator are provided for evaluating User's Global Permissions.

- Global Permission Condition — Workflow Condition on Global Permissions
- Global Permission Validator — Workflow Validator on Global Permissions
