

Plugin Installation

1. Log into your JIRA instance as an administrator
2. Go to **Add New Add On**
3. Select the plugin [Alkaes Plugin - User Security](#). Its Plugin Key is **com.alkaes.jira.jira-plugin-users-security**.
4. Perform its installation
5. A set of different plugins will be installed.
 - Some of them are only technical plugins (License Management)
6. When installed, you will be able to access the **Alkaes License** page, where it will be possible to apply a License Key file.
