

Workflow Conditions (Minyaa Workflows)

Minyaa Workflows provides a set of Workflow Conditions

Evaluating Issue Context

Conditions based on Issue Context (Attributes, ...)

- [Block Linked Issues](#)
Condition to block a Transition depending on Status of Linked Issue.
- [Date Reached](#)
Condition based on Date.
- [Project Condition](#)
Condition on a specified Project.
- [RegExp Pattern Condition](#)
Condition based on a Pattern of Regular Expression

Evaluating Issue Role

Conditions based Issue Roles (Assignee, Reporter, ...)

- [Allow Leader](#)
Condition for allowing only Project Leader.
- [Allow Reporter](#)
Condition for allowing only Issue Reporter.
- [Assigning Conditions](#)
Conditions for allowing only if the Issue is Assigned or Not assigned.

Evaluating something lese

Conditions used for more complex cases

- [Activity and Unactivity Condition](#)
Conditions based on Activity or Inactivity on a Issue.
- [Flag Condition](#)
Condition to allow only a Flag is passed.

- [Minyaa Suite](#)
