Minyaa Spread Home

The ***Alkaes Minyaa Spreads*** Plugin allows to ...

Minyaa Spread introduces some features around Issue Spreading (Ability to dispatch/distribute issues following different criteria) ...

- Link Scheme,
- ...

Link Scheme

The main idea of **Link Scheme** is define what are the preferred link between two issues.

Its definition has a direct impact on offered operation in the Issue View by adding a **Create and Link Issue** operation.

Road Map

In futures release, **Minyaa Spread** should also offer a concept Issue Spreading, based on predefined Template ... To imagine and follow ...

Older versions ...

For previous versions of Minyaa Spread (Minyaa Suite 3.x), please refer to Minyaa Spread 3.5.x .

All features ...

- Linked Issue Creation
- Link Scheme
