Define a Group Delegation

Overview

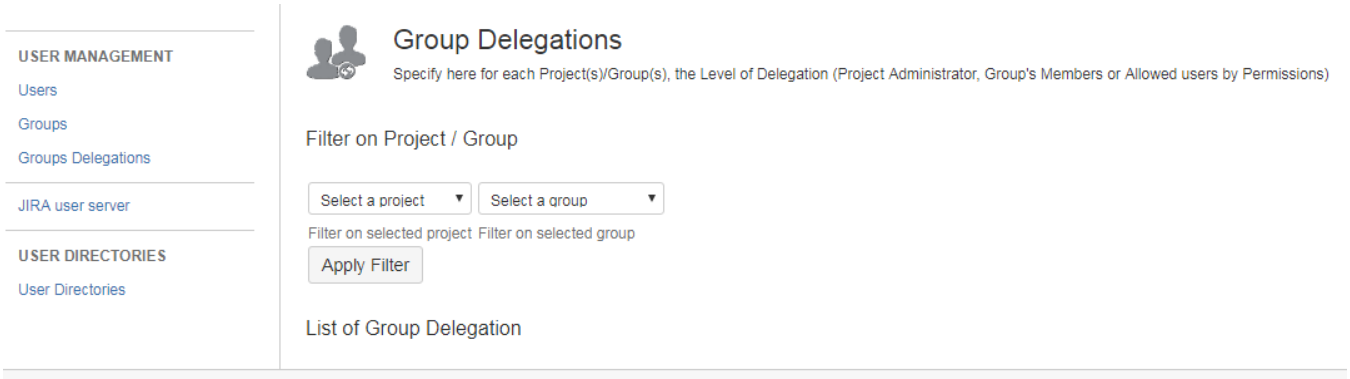

As ***Granted User*** with the permission **Manage Group Delegation**, you will be allowed to define which groups will be delegated in which Projects.

Access Group Delegation page

To access to this feature :

1. You require the permission ***Manage Group Delegation***.
2. Go to the ***User Management*** section
3. And click on ***Groups Delegations***.

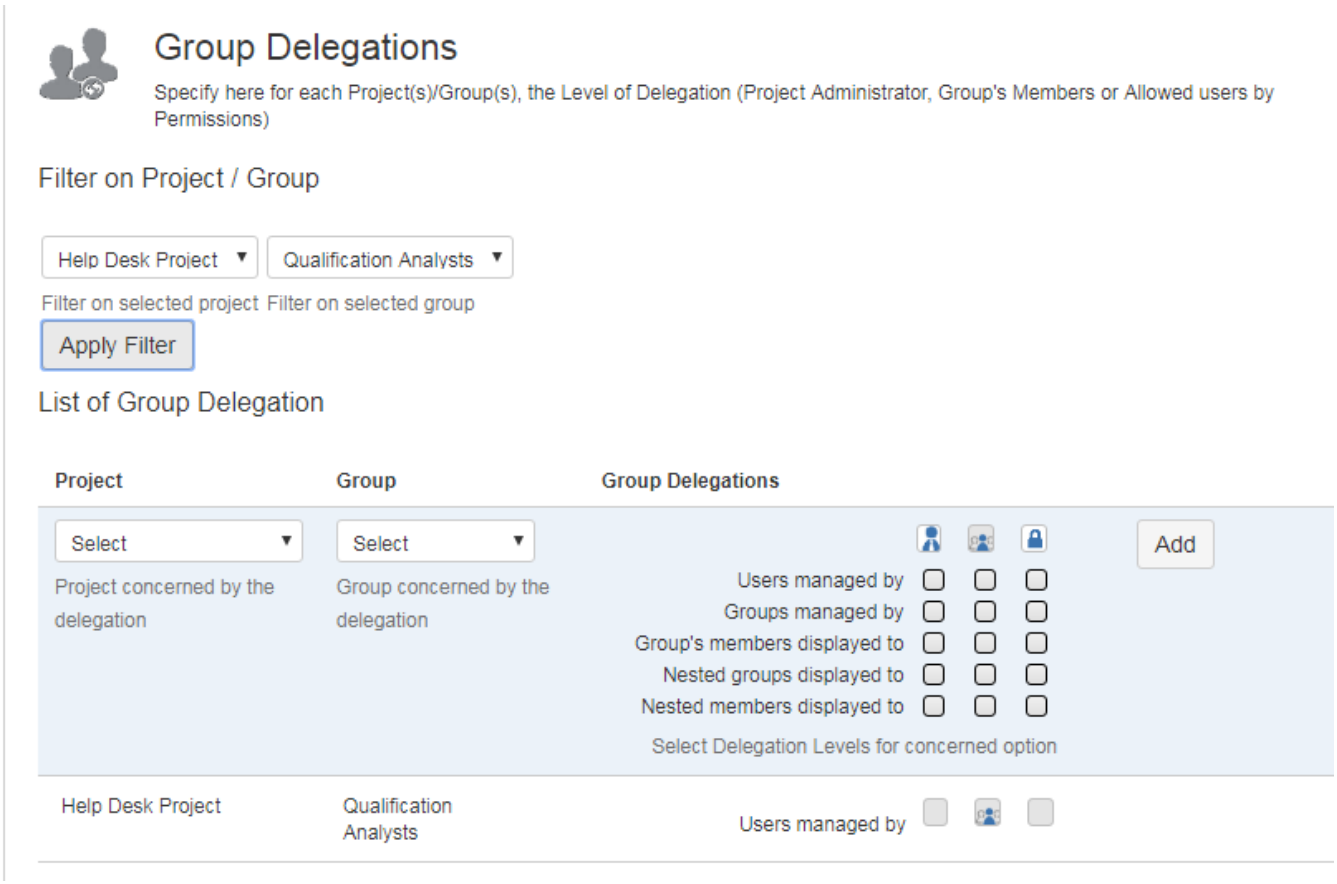

The displayed page looks like ...

Search for existing Group Delegations

From this page, you will be able to filter your search depending on the ***Project*** and/or the ***Delegated Group***.

When applying the filter, the matching ***Delegated Group*** will be displayed with defined ***Group Delegations***.

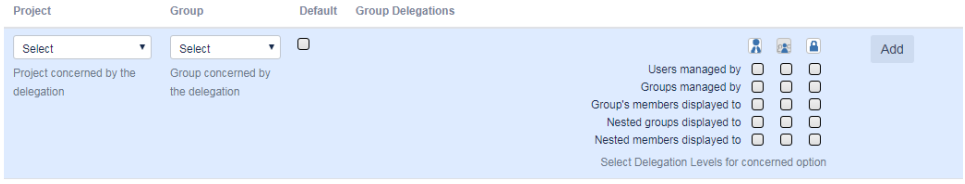

Create a new Group Delegation

To create some ***Group Delegations*** for a Group or a Project or both, you will have to apply a filter on wanted criteria.

It will allow you :

- to see in first position an empty ***Group Delegation*** matrix,

- and in the same time, to double check which ***Group Delegations*** are not already created for the filtered Project/Group,
- and then, you will create a new ***Group Delegation*** by selecting :
  - the expected Project or the ***Any*** option,
  - the expected Group

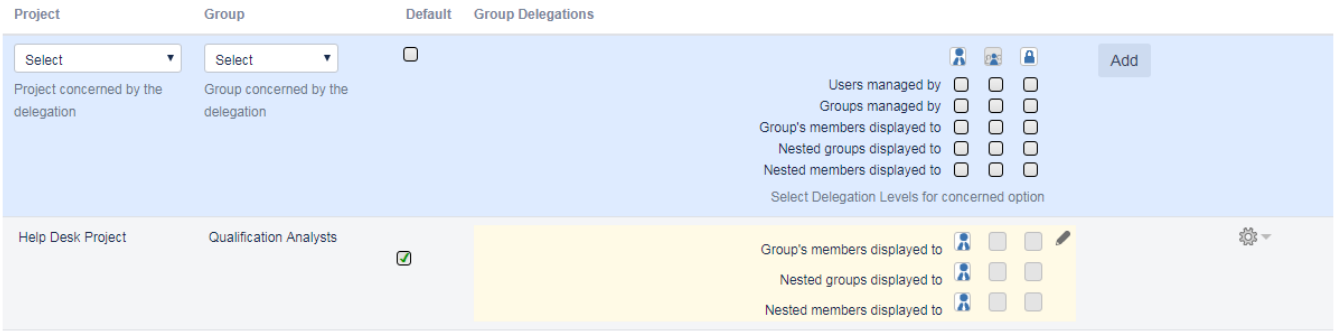

If some ***Group Delegation*** exists for your selection, the creation will be rejected. You will have to modify it, since it is not allowed to create more than one set of Group Delegation per Project/Group.

If none exists, then you can use the empty matrix.

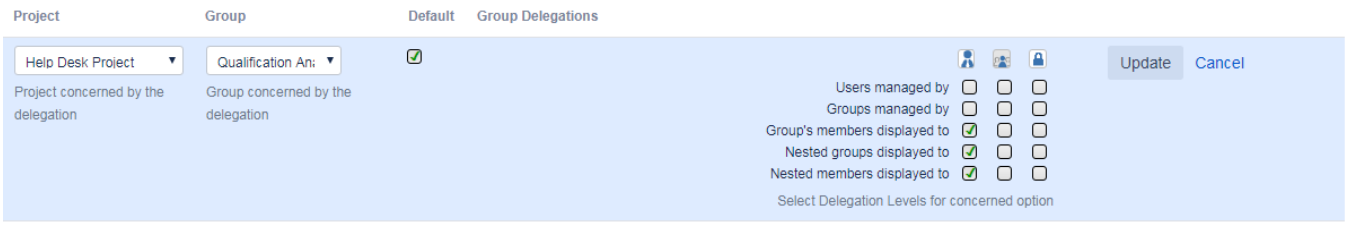

When selecting ***Any*** option fro Project, the ***Group Delegation*** will be applied on all projects.
