

How to replay Upgrade Task ?

Reminder

if you arrived here, it is probably that you have experienced some issue with one of Minyaa Workflows's Upgrade !

Sorry for these disagreement.

With below REST API, you will be able to replay some of Upgrade Task on a part of your Workflow.

To identify which Upgrade Tasks have to be replayed see Upgrade Notes pages.

/rest/minyaaWF/1.0/workflows/upgrade

Description	Launch a (or more) Upgrade Tasks on a set of Workflow. Only UpgradeTask who extends com.alkaes.jira.upgrade.AbstractWorkflowUpgradeTask are allowed. The class AbstractWorkflowUpgradeTask is used by different Alkaes Plugin as soon as they provide Upgrade Task related Workflows.												
Method	POST												
Content-Type	application/json												
Parameters	<p><u>PayLoad Parameters :</u></p> <table><tr><th>Properties</th><th>Values</th><th>Descriptions</th></tr><tr><td>pluginKey</td><td>String</td><td>Complete Key of the plugin who provides the selected UpgradeTasks</td></tr><tr><td>workflowNames</td><td>List<String></td><td>List of Workflow Names for which you need to re-launch the selected Upgrade Tasks</td></tr><tr><td>upgradeClassNames</td><td>List<String></td><td>List of Workflow Upgrade Tasks to re-launch.</td></tr></table> <p>Sample : Error rendering macro 'code': Invalid value specified for parameter 'com.atlassian.confluence.ext.code.render.InvalidValueException'</p> <pre>{ "pluginKey": "fr.alkaes.minyaa.jira-plugin-minyaa-workflows", "workflowNames": ["nameOfMy1stWorflow", "nameOfMy2ndWorflow"], "upgradeClassNames": ["fr.alkaes.myaawf.upgrade.UpgradeTask_001", "fr.alkaes.myaawf.upgrade.UpgradeTask_002"] }</pre>	Properties	Values	Descriptions	pluginKey	String	Complete Key of the plugin who provides the selected UpgradeTasks	workflowNames	List<String>	List of Workflow Names for which you need to re-launch the selected Upgrade Tasks	upgradeClassNames	List<String>	List of Workflow Upgrade Tasks to re-launch.
