Delegated Groups

Create User

Groups

Users

Team A

 developer 1

Depending on which [Delegation of Create User Permissions](#) you are granted and on how [Group Delegations are defined](#), a **Create User** screen, similar as the JIRA Administrator, will be displayed :

- with or without Application Access options
- with Optional or Mandatory Default Groups

with or without Application Access

Depending on the [Delegation of Create User Permissions](#), the **Application Access** options will available or not ...

If you are not granted to give access to one of JIRA Applications, on Create User operation, you will have to provide at least below attributes:

- Username
- Full name
- Email

and optionally :

- Password
- Notification by mail
- Application Access

Notes :

- The User Creation will internally performed by using one of account of JIRA Administrator, if possible with the same Locale as you account.
- If no JIRA Administrator uses your Locale, you will see errors message in the language of one of them.

Create new user

You are granted to create user with application access. Enter requested details. Select below the application(s) to grant to this new user.

You are granted to create user without access to installed applications. Enter requested details. Created user will be identified by his email (Internal user name) without password.

Full name*

You must specify a full name.

Email*

You must specify an email address.

Application access
None

Create Annuler

with Default Group(s)

Depending on how [Group Delegations are defined](#), a list of groups may be displayed.

Group of each **Group Delegations** qualified as **Default** will be displayed as a group selected for being granted to the new created user.

If you are allowed to manage Group Membership for this Group Delegation, you will be then allowed to unselect this group.

By example, with these 2 below Group Delegations ...

Project	Group	Default	Group Delegations
Help Desk Project	IT Team	<input checked="" type="checkbox"/>	Users managed by <input type="checkbox"/> <input type="checkbox"/> Groups managed by <input type="checkbox"/> <input type="checkbox"/> Group's members displayed to <input type="checkbox"/> <input type="checkbox"/> Nested groups displayed to <input type="checkbox"/> <input type="checkbox"/> Nested members displayed to <input type="checkbox"/> <input type="checkbox"/>
Help Desk Project	Qualification Analysts	<input checked="" type="checkbox"/>	Group's members displayed to <input type="checkbox"/> <input type="checkbox"/> Nested groups displayed to <input type="checkbox"/> <input type="checkbox"/> Nested members displayed to <input type="checkbox"/> <input type="checkbox"/>

when creating a new user :

- The groups **Qualification Analysts** and **IT Team** will be selected
- But you will be allowed to deselect only **IT Team**.
- The Group **Qualification Analysts** is mandatory on User Creation.
