

Upgrade from Minyaa 3.5.2 to Minyaa 6400.4.0

Since Minyaa has been fully refactorised, to upgrade from **Minyaa 3.x** to **Minyaa 4.0**, an upgrade to **JIRA 6.4.12** with **Minyaa 3.5.2** will be mandatory.

Installation and Migration

You will have to process as follow :

1. Complete a first migration to Minyaa 3.5.2 with JIRA 6.4.12 : See [Upgrade Notes of Minyaa 3.x](#).
2. When JIRA 6.4.12 is available with Minyaa 3.5.2, then stop JIRA
3. Remove all **Minyaa Plugin V2** (located in `<jira-home>/plugins/installed-plugins`)
4. Remove **Minyaa Workflow Designer** (`<jira-install>/WEB-INF/lib/jira-plugin-minyaa-workflows-designer-6.4.6-3.5.3-SNAPSHOT.jar`)
5. Restart JIRA
6. Install **Minyaa Suite 4.0** for **JIRA 6.4.12** (`jira-plugin-minyaa-suite-6400.4.0.obr`)
7. Let Minyaa complete its Upgrade Task
8. Stop JIRA
9. Remove all other Minyaa 3.x Plugins and Libraries from `<jira-install>/WEB-INF/lib`

10. Restart JIRA

At this stage, the previous Listeners and Service of Minyaa 3.5.x have been upgraded to the new version.

Gadget Migration

At the moment, there is no automatic migration process for upgrading to the new **Minyaa Gadgets**.

You will have to perform them by yourself.
