

# Upgrade from Minyaa 6400.4.0 to Minyaa 7000.4.0

When you will have to migrate from **Minyaa 6400.4.0** to **Minyaa 7000.4.0** with **JIRA 7.0.x**, you will have to follow the below sequence :

1. Install you new JIRA 7.0.x instance on a fresh Database
2. Install the wanted Edition of Minyaa
3. Stop JIRA 6.4.12
4. Switch JIRA 7.0.x settings to the Production Database
5. JIRA and Minyaa will perform their upgrade tasks
