# Log Work by Delegation

What is it?

The problem you need to solve:

- Work should be logged for a user but he isn't able to log it right now,
- A logged work needs to be corrected by the Project leader,
- The author of a logged work has to be updated.

How Minyaa solves this problem: Minyaa allows you to grant a user the privilege to log time for another user (allowed to log work too).

- To create a worklog
- To update a worklog

On this page:

- What is it?
- Allowing a User to Log Work by Delegation

Allowing a User to Log Work by Delegation

In order to allow users or a group to log work for other users, you have to grant them the **Edit Worklogs for Team Members** Project Permission Scheme.

For more information on permission management in JIRA, please see JIRA: Managing Project Permissions

- Minyaa Suite

ℹ **Useful hint**
