

Additional Resources

What is it?

It is not features directly usable. They are provided by Minyaa Core in order to extend JIRA and allows other Minyaa plugins to benefit to common JS and CSS resources.

Among them we have :

- Additional Value Picker for Gadget (used by Minyaa Time gadgets),
 - A simple Project Picker
 - A Boolean Picker
 - A Timesheet mode Picker
 - A Time Format Picker
 - A User Period Picker
- JS for extending **User Picker** in customfields
- Different CSS for **Minyaa Time Reports**
- The **DivLib** resources (used in past in Worklog Gadget, but always used in Timesheet Issue View Panel)
- The **FlexiGrid** for **Timesheet Gadget**
- The **dhtmlXCombo** for **Timesheet Issue View Panel**
- The **ColorPicker** for editing the **Worklog Types**
- The **Treetable** for **Minyaa Time Reports**.
