

In Time Spent Panel

The **Worklog Type Panel** gives another way to display entered worklogs. You are able to display worklogs agregate depending on differents criteria.

Availables criteria are :

- **Worklog Author**
- **Worklog Type**
- **Worklog Date**, declined in :
 - Day
 - Week
 - Month
 - Quarter

Depending on selected criteria, you will obtain differents agregation of time spent with follwing informations :

- **Spent Time** : Agregate time spent by criteria.
- **% Estimate** : Spent Time against Original Estimate expressed in %.
- **% Effective Estimate** : Spent Time against Effective Estimate (Remaing Estimate + Spent Time) expressed in %(always 100% if no estimation have been done).
- **% Time Spent** : % of time spent against the agregate time of previous agregation level.
