

Progress Workflow by Customfield

What is it?

Minyaa provides an integration of *Philip Herbst's* CustomFieldType, as described in [Available Workflow Actions Customfield](#).

Configure a Available Workflow Actions Custom Field

To configure a **Available Workflow Actions CustomField**, process as follow :

1. Add a new **Available Workflow Action**

Workflow Action Field

Displays the available workflow action on the issue navigator

2. Specify its name and its description

Create Custom Field - Details (Step 2 of 2)

Configure custom field details and choose the context where this custom field will appear

Field Type: Workflow Action Field

* Field Name:

Name for the custom field

Description:

A description of this particular custom field.
You can include HTML, make sure to close all your tags.
