

# About

## Alkaes Location ...

**Alkaes Consulting** is a company based near Paris, and dedicated to Atlassian's Products with a focus on Atlassian JIRA.

## Alkaes History ...

**Alkaes Consulting** is not positionned as an official Atlassian Experts, but works with some of them in France.

Our experience in JIRA has started in 2003 :

- Development of **different plugins** for a Bank, in order **to implement CCMi** features in JIRA,
- In 2006, release of a first open-source plugin (**Kaamelot for JIRA 3.10**), where all generic features were assembled,
- In 2009, Kaamelot is refund into **Minyaa plugins** (for JIRA 4.0) with [Pyxis Technologies](#) (founder of [Greenhopper](#), ancestor of JIRA Agile plugin, now provided in JIRA Software)
- In 2011, **Alkaes Consulting** is fund in order to continue the adventure wirh [Minyaa](#)
- From 2011 to 2016, Alkaes takes part in different missions around Atlassian products, with always the goal of reusing generic solutions. Many plugins are developed but never released on **Atlassian Marketplace**. Minyaa Plugin follows the new versions of JIRA but without filling the gap caused by official Public API introduced with JIRA 5.x.
- In 1st semester of 2016, a important effort is allocated in a new refund of [Minyaa plugins](#) in order to respect Public API and to allow hot deployment through the JIRA Universal Plugin Manager.
- In end of 2016, different new plugins (developed since 2011) are officially released and available in [Atlassian Marketplace](#).

## Etymology of Alkaes ...

The name of Alkaes is issued from the Latin word Alcahest ([en|fr](#)) / Alkahest ([en|fr](#)) / Alkaest ([en|fr](#)), which represents an Universal dissolvant that allows Alchemist to transform any metal in gold.
