

Disabling/Uninstalling Plugin

To uninstall/disable the plugin

1. Log into your JIRA instance as a **JIRA Administrator**.
2. Choose the **cog icon**  at top right of the screen, then choose **Add-ons** and the left-hand side of the page select **Manage add-ons**.

*You can use [keyboard shortcut](#): click **g** two times and start typing **manage...** Then select **Manage Add-ons**.*

3. Expand plugin in the User-installed Add-ons.
4. Click the **Disable/Uninstall** button.

See further information for JIRA documentation on [Disabling and Enabling add-ons](#).
