

Settings

Overview

Different settings are introduced by [Alkaes JIRA Plugin Field Administration Enhanced](#) allowing to enable/disable/configure its features.

Manage Settings

From **Manage Apps** section:

- Go to **Alkaes Settings** sub-section (provided by **Alkaes JIRA Plugin - Settings Mangement** embedded plugin, common to all Alkaes Plugins), and click on **Manage Settings** menu entry,
- Click on **Field Administration Enhanced** tab to see its settings
