

In Worklog Reports

Concepts

Minyaa Time provides reports all based on the same aggregation mechanism.

They differ by the nature of data displayed or the way how they are retrieved.

See [different concepts](#) linked to Minyaa Worklog Reports

- How worklogs are displayed : **Hierarchic**, **Flat** and **Excel** Views ?
- How worklogs are filtered ?
- How Date criteria may be used with relative operators ?
- How Worklogs are aggregated ?
