

# Timesheet Events

 Timesheet Notification Feature is currently broken due to change in Jira APIs.  
It will be reviewed in future.

## Timesheet Notifications

Timesheet Management is defined with a default Notification Scheme.

| Event                       | Notifications                                                                              | Actions             |
|-----------------------------|--------------------------------------------------------------------------------------------|---------------------|
| Timesheet Submitted         | <ul style="list-style-type: none"><li>Project Role (Timesheet Approver) (Delete)</li></ul> | <a href="#">Add</a> |
| Timesheet needs a review    |                                                                                            | <a href="#">Add</a> |
| Review needed for a Worklog | <ul style="list-style-type: none"><li>Project Role (Timesheet Approver) (Delete)</li></ul> | <a href="#">Add</a> |
| Timesheet Modified          | <ul style="list-style-type: none"><li>Project Role (Timesheet Approver) (Delete)</li></ul> | <a href="#">Add</a> |
| Timesheet Validated         | <ul style="list-style-type: none"><li>Project Role (Timesheet Approver) (Delete)</li></ul> | <a href="#">Add</a> |

To allow such notification, Minyaa has implemented its own Notification Type Provider and Template Provider provided by Minyaa Core :

- Notification Type Provider
- Template manager.

## Timesheet Notification Type

Timesheet Management comes with a new Notification Type based on the Permission Approve Worklog.

## Timesheet Events

Some event are added in the configuration and associated to new Mail Template.Workflow for Timesheets

| Name                        | Description                                                             | Status   | Default Template | Associated Notification Schemes                                                               |
|-----------------------------|-------------------------------------------------------------------------|----------|------------------|-----------------------------------------------------------------------------------------------|
| Timesheet Submitted         | The Timesheet has been submitted by its owner.                          | Active   | Generic Event    | <ul style="list-style-type: none"><li><a href="#">Timesheet Notification Scheme</a></li></ul> |
| Timesheet needs a review    | The Timesheet has been submitted by its owner.                          | Inactive | Generic Event    |                                                                                               |
| Review needed for a Worklog | A Woklog Review has been asked by a Timesheet Approver.                 | Active   | Generic Event    | <ul style="list-style-type: none"><li><a href="#">Timesheet Notification Scheme</a></li></ul> |
| Timesheet Modified          | A already submitted Timesheet has been modified by its Timesheet Owner. | Active   | Generic Event    | <ul style="list-style-type: none"><li><a href="#">Timesheet Notification Scheme</a></li></ul> |
| Timesheet Validated         | The Timesheet Validation has been fully validated by Approvers.         | Active   | Generic Event    | <ul style="list-style-type: none"><li><a href="#">Timesheet Notification Scheme</a></li></ul> |

## Timesheet Mails

Following the configured Notification Scheme, each actor is notified by a mail where are displayed :

- The reference of the Timesheet : Owner, Period and Status
- The Workflow Transition which has raised the event
- A list of link to each Worklogs impacted by the transition
- The associated comment

#### **Under contruction**

Thanks for noting that this documentation site is under construction. You can refer to [Minyaa Time 3.5.x](#) .
