- [Minyaa Workflows](#) : It allows you to install only [Minyaa Workflows](#) and its dependencies
- [Alkaes User Security](#) : It allows you to install only [Alkaes User Security](#) and its dependencies

What new with Minyaa 4.13

This new release of Minyaa, for JIRA 6.4 to 7.3.3, comes mainly with :

- A new feature in **Minyaa Time 1.16** : The [Worklog Fields](#).
In few line, it allows you to implement your own Fields related logged Works.
 - By example, you can implement an additional field in order to qualify if you Worklog is chargeable

The screenshot shows the 'Edit Log Work' form in JIRA. The form is titled 'Edit Log Work' and contains several fields:

- Time Spent***: A text input field with a help icon and a note '(eg. 3w 4d 12h)'.
- Worklog Type***: A dropdown menu currently showing 'Undefined Type'. Below it is a note 'Select Worklog Type associated to the spent time.' and a help icon.
- Author**: A text input field with a user icon. Below it is a note 'Start typing to get a list of possible matches.' and 'Enter the Worker id.' with a help icon.
- Start Date***: A date and time picker showing '23/Mar/17 11:13 AM'.
- Chargeable**: A checkbox that is currently unchecked. Below it is a note 'Check it, if the related spent time is chargeable.'
- Adjust Estimate**: A radio button selection with 'Adjust automatically' selected. Below it is a note '(the estimate will be reduced by the amount of work done, but never below 0.)'.

At the bottom right of the form are two buttons: 'Log' and 'Cancel'.

- The field is available in the Extended Issue Worklog

Activity

All	Comments	Work Log	Worklogs +	Time Spent	History	Activity
admin logged work - 05/Jun/14 2:09 PM Time Spent: 10 minutes Status: - Type: Analysis Chargeable : ☒ test Worklog						

- Note that these fields will be no yet available in Worklog Reports (to be implemented in futures releases).

- And some Bug Fixing for other **Minyaa Editions**

Download today [Minyaa Suite for you JIRA](#) and request now a new [Trial License](#) for Minyaa 4.x !

Other Alkaes Plugins

Minyaa Editions are not the only plugins of Alkaes Consulting, available in Marketplace ... You will be able to evaluate the following plugins :

- [Alkaes Field Administration Enhanced](#) : It is a Free plugin that allows you to benefit to useful feature around JIRA Administration.
Make a try !!
- [Alkaes Plugin Workflows Tools for JIRA](#) : It is a Free plugin that allows you to force the update of Workflow Descriptor without passing by a Draft.
To use carefully only if your are concerned by [JRA-38337](#).
- some other will be published in following weeks ...

Best Regards from **Alkaes Consulting**

Vincent
